

Danielle Wagner has been training and performing with her pups for over 20 years!

When you see Danielle perform with her dogs, you can see her love of animals' shine through. Her passion for pups has been lifelong.

As a child, her constant companion was the family's border collie mix, Willie Girl. That bond sparked the passion Danielle would carry through her lifetime. It sparked what has become what you see in her performances today. If you ask Danielle, she will tell you she was raised by a border collie!!

Danielle's first dog of her own was a border collie named Zeek who was a rescue from Texas. It was Zeek that got them playing dog sports. Danielle and Zeek were the first team to win back-to-back series in the premier long-distance competition known as the Quadraped! Danielle and several of her other dogs have been qualifiers in multiple national and world Frisbees competitions. Reaching the podium multiple times. Not only has Danielle and her dogs competed in frisbee, but also agility, rally, and dock diving.

Later Danielle expanded her training techniques to dogs with special needs. One of which was a deaf dog, Good Vibrations. Vibe (Good Vibrations) went on to win Purina's Incredible Dog Challenge special event on the USS Midway.

Danielle and the Team Zoom pack have been performing around the country for over ten years.
